4. [REDACTED] Chief, Circulation Branch of the Library, forwarded your query regarding our ability to procure maps locally. We have established contacts with the three services and can procure AMS, WAC and Hydrographic Office maps locally when they are available. Our request for maps of Indonesia 1:500,000 (HULA-4769) actually originated in CINCPAC. Although we wanted maps of that particular scale, we were very glad to receive the AMS maps you sent of 1:1,000,000 and 1:100,000 scales as they had become temporarily very scarce here on the island. In the future you may assume we have procured locally AMS, WAC, and Hydrographic Office maps on a given area unless we specifically state to the contrary. Normally we will expect to receive only CIA and non-government procured maps from you.
